3:41 PM

Welcome to the first Community Forum on the City's Debt Crisis. We have a few handouts which you should have picked up when you arrived. Our format is designed to inform the community how we got into the mess, where are we now and what are the options.

We will attempt the following format:

- I. How did we get here: Bill Cluck- Harrisburg Authority Board Member
Bill will try to keep his presentation under 15 minutes (good luck, he's a lawyer)
Bill encourages questions and will take questions for five minutes

- II. Where are we now: Jay Wenger- Susquehanna Financial Group- Dauphin County Financial Advisor
We invited representative from the City.
Jay is welcome to present the County's perspective on the debt crisis.
Bill may chime in to discuss the draft Forbearance Term Sheet and some of the issues coming down the pike
We will attempt to limit this segment to 15 minutes (unless we're on a roll)

- III. What are our options: Neil Grover, Esquire will present his conceptual plan for restructuring/paying down the 4281 debt
Heather Long- Patriot News editorial board will present the Patriot's proposal to pay down the debt
Juliet Moringiello- Professor of Law Widener Law School will discuss bankruptcy

Neil ,Heather and Juliet will each have about ten to 15 minutes for their presentations

- IV. Public participation - this is when you can ask whatever you want or voice your opinions/concerns/suggestions

Ideally, we will have at least 45 minutes for this segment

We would like to end by 8 pm, but some of us can stick around for a little while.
